Federal and State Tax Data

Trustees of Tufts College

You must complete Federal and State tax withholding information so the HR Service Center can calculate the correct amount of taxes to withhold from your pay. Taxes are withheld from your wages based on marital status and the number of allowances claimed. You may also specify that an additional dollar amount be withheld. You can file new withholding information anytime your tax situation changes and you choose to have more, or less, withheld.

Whether you are entitled to claim a certain number of allowances or exemption from federal withholding is subject to review by the IRS. Your employer may be required to send a copy of your W4 form to the IRS.

The federal government provides a worksheet with instructions and tables to assist employees in calculating the correct withholding. This worksheet is available at:
